

# SOUNDPROOF ACCORDION

## Curved Track Construction

For side folding doors and grilles, installing a curved overhead track can help avoid design obstacles in the ceiling space.

## Pocket Door

Available for side closing products up to 12 feet high, this heavy duty 12 gauge steel pocket door and frame assembly neatly closes off the pocket area of a stored

partition.

## Single Slide or Bi Parting Construction

This side folding product can be designed to close at the center of the room in divided sections or extend fully from one wall to the other.
