

SIDE FOLDING ACCORDION UNITS

ANC-30 Accordion Door

Model ANC-30

COMPACT, SECURE AND PRIVATE SPACE SEPARATION

PRIVACY PROTECTION

ANC-30 Accordion Door doors deliver separation of space in areas where interrupting a visual pathway is paramount.

BUILT FOR THE LONG HAUL

Although built for lasting performance and warranted against defects in materials and workmanship for two years, this unit is designed for ease of service. With the unit in place, one or more panels can be easily changed out simply by removing and replacing the flexible vinyl hinges.

AN ELEGANT WAY TO SEPARATE SPACES

When a large singular area needs to serve multiple uses, depend on TranZform Space. Supplied standard in three sophisticated finishes and available in a host of other options, this unit adds warmth and flexibility to any room.

SUITABLE APPLICATIONS

Install ANC-30 Accordion Door in religious facilities, educational institutions, government buildings, healthcare offices, hotels, public offices, airports, museums, theaters, private offices and more.

ANC-30 Accordion Door

STANDARD COMPONENT MATERIALS AND FINISHES

TRACK - Heavy-duty extruded aluminum or steel supports and retain the roller assemblies.

ROLLERS - Every other panel is fitted with a nylon wheel, ball bearing roller for added wall panel support and smooth operation. Lead posts are fitted with heavy-duty trolleys featuring multiple sets of dual rollers.

LEAD POST - Heavy-duty extruded aluminum with powder coated finish to complement wall panels. Grip-type handles provide operational support and hook bolt connection to strike posts. Keyed locking is optional.

STRIKE POST - Heavy duty extruded aluminum with hook bolt strike to seal tight with the lead post. Powder coated finish complements wall panels.

PANELS - Continuous, single-wall, roll-formed corrugated steel for impact resistance. The public side features permanently-bonded, scratch-resistant, decorative vinyl in one of three stock finishes: Almond Embossed Weave, Driftwood Embossed Weave and Vanilla Cream Embossed Leather. The other side is painted in Platinum Gray.

HINGES - Full height extruded vinyl hinges are rugged for lasting performance and allow for simple panel replacement with units mounted in place. Color matched to complement wall panels.

HEADER/FLOOR SWEEPS - Flexible extruded vinyl seals are attached to the top and bottom of the panels to eliminate gaps at the floor and head.

END MEMBER POST - Used to attach the stack side(s) of the unit to the wall jamb to provide a full height, secured and sealed fit.

OPERATION

Manual operation required.

OPTIONAL FINISHES

Other panel finishes are available, such as Colonial Green Embossed Weave and Steel Gray Embossed Leather, but may require additional lead time and/or cost.
